

Happy New Year to the Temple Israel family.

I am pleased to report that we are continuing to move forward. We received our building permit for Phase I. Sanctuary construction commenced prior to the beginning of this year. Phase II plans (the clergy and administrative offices and the media center/library/cyber center) are being completed and will be submitted for bid and permit within the next few weeks. The Design Committee met last week to finalize fabric colors for chairs and pews and to refine interior and exterior paint color choices. The capital campaign has continued to receive additional donations that are of significant value to this project. A list of items to dedicate will be available soon.

We have the map for our route to destination 1901 North Flagler Drive. We have our contractor, architects, engineers and committees to provide human GPS. Now is the time for all of our congregants to get onboard for our journey home.

Michael Jonas, Chairman

Here are some photos of our work in progress.....
